BRANDON DE BRUYN

Intermediate Software Developer

073-494-2610 | b.deburyn02@gmail.com | github.com/bdebruyn02

PROFILE

Hi, I'm Brandon, a full-stack developer with a strong passion for coding. My primary tech stack includes ASP.NET and ASP.NET Web API, .NET Framework, C#, TypeScript, JavaScript, Angular, SCSS, CSS, Ionic, Firebase, and Microsoft SQL. I strive for excellence in all my projects and am dedicated to staying updated with the latest advancements in technology.

WORK EXPERIENCE

INTERMEDIATE SOFTWARE DEVELOPER

CBOS

July 2024 - Present

At CBOS, I develop and maintain web applications using the .NET Framework, Angular, and ASP.NET MVC. My key contributions include:

- Building dynamic web applications with ASP.NET MVC and C#.
- Creating responsive front-end interfaces using Angular.
- Managing databases with Microsoft SQL Server and optimizing data access through Entity Framework.
- Collaborating in Agile teams to deliver high-quality software solutions.

SOFTWARE DEVELOPER

Microzone Solutions

March 2022 - June 2024

At Microzone, I maintained and developed software solutions by creating Micro-Front Ends in Angular and Micro API Services in ASP.NET C#. Key highlights include:

- Developed and optimized database changes using Microsoft SQL.
- Collaborated with senior developers on project management and strategic initiatives.
- Delivered projects in TypeScript, SQL, and C# as part of a small team, consistently exceeding deadlines through teamwork.

SOFTWARE DEVELOPER INTERNSHIP
Microzone Solutions

February 2022 - February 2022

During my internship at Microzone, I enhanced my Full Stack Development skills, working with TypeScript, Angular, SCSS, and ASP.NET Web API. Key achievements include:

- Gained practical experience in SQL and full-stack technologies.
- Adapted to a dynamic work environment while staying updated on evolving industry standards.
- Worked under mentorship to implement code changes aligned with projectdesign specifications.

LEAD DEVELOPER
OriginX RP

August 2020 - April 2021

In the Origin X Project, I contributed effectively both independently and as part of a team.
Key accomplishments include:

- Set up and configured a TeamSpeak server on Debian Linux via SSH.
- Configured a Rack Server to ensure global connectivity for end-users..
- Independently optimized the server to handle high workflow demands smoothly.

EDUCATION

CTU Training Solutions
February 2021 - November 2021
National Certificate: IT Systems Development (SAQA ID 48872), Information Technology (Systems Development)

CTU Training Solutions
February 2020 - November2020
FET Certificate: Systems Development (SAQA ID: 78965), Computer and Information Sciences and Support Services
